Font Family

The quick brown fox jumps over the lazy dog.

MONOSPACED BUT NO MONO SPACE Medium Caps 12,5 pt

Light 9,5 pt
Created from 2002 to 2007 this font family is influenced by fonts like *OCR-B*, *DIN* and the work of *Erik Spiekermann*. Newsletter is not a real monospaced font but has the **ease of recognition** these fonts have – even though these fonts are often criticized for their aesthetic qualities. Newsletter has a computer-related impression but is more **legible and aesthetic** than real monospaced fonts are.

Since 2006 Newsletter is the corporate font of the design agency »die Typonauten«. It is eminently suitable for **correspondence use**. After a testing period and fine tuning it is now published.
